

Ultimate Roof Protection

The Full Roof Restoration Process

The Roof Membrane Next Generation coating system is a full restoration process installed by Dulux® AcraTex® Registered Roofing Applicators to ensure total confidence.

Tiled Roofing

Inspection/Repair/Replace

The entire roof is inspected for damaged tiles, loose or missing bedding, moss and lichen.

Damaged tiles and faulty valley irons are replaced where required.

Clean

The roof is high pressure washed with water directed away in an environmentally friendly manner using lay-flat hosing as required.

Re-bed & Re-point

Ridge capping is re-bedded, where required.

Ridge capping is then re-pointed with a flexible acrylic pointing mix.

Sterilise

Fungal and algal spoilage must be treated before recoating.

AcraTex® PrepTreat is applied after cleaning to sterilise the surface.

Primer/Sealer

The entire roof area is sealed to ensure strong adhesion with Roof Membrane Next Generation.

A range of specialty primers are designed to work in system to suit specific conditions.

Roof Membrane Next Generation

Two coat application encapsulating the surface.

Roof Membrane Next Generation provides ultimate protection, durability and weather proofing.

Metal Roofing

Inspection

The entire roof is inspected for damage and preparation requirements.

Clean

The roof is high pressure washed with water directed away in an environmentally friendly manner using lay-flat hosing as required.

Primer

Specialist corrosion control primers are installed where required. System options for Galvanised, Zincalume® or pre-coated metal.

Roof Membrane Next Generation

Dulux® AcraTex® has you covered for Professional Roof Restoration.

As the largest and most trusted coatings company in Australia, we don't just stop at walls - *Dulux AcraTex* Roof Membrane Next Generation is a full Professional Roof Restoration System with:

- High Build Barrier Protection
- *Dulux* colour and durability
- Systems for Tile or Metal Roofs
- Choice of Conventional or Cool Roof Technology

Extended Colour Range - More Choice

Traditional roofing colours plus popular Tile and Metal roofing colours - all with *Dulux* durability.

Talk to your *Dulux AcraTex* Roofing Professional about colours you don't see here.

InfraCOOL® Technology Optional across most colours in the range.

Colours marked  (the *InfraCOOL* star), are available in Cool Roof with *InfraCOOL* Technology to reflect more of the sun's radiation.

InfraCOOL works by targeting the Sun's infrared rays which account for approx. 50% of the Sun's Total light energy hitting the roof.

By reflecting more light, *InfraCOOL* helps keep surfaces cooler and reduce heat buildup.
